

Translation Update: Asia

A language community of nearly 2,000 speakers in Asia celebrated the birth of our Savior with the New Testament in their heart language. Speakers walked for days from their villages to attend the biggest spiritual party ever in their area – the dedication of the New Testament.

Prior to the celebration, literacy workers had prepared the speakers by teaching them to read and write in their language. Pray the people will respond to the Scriptures, and praise God for the completed translation!
