

Translation Update: Kriol Language Group

The entire Bible has been completed in Kriol! This is the first time a complete Bible has been completed in an Australian Aboriginal language. The Kriol team finished the final check on the last group of Psalms in November 2005, and the entire Book will undergo final editorial checks and typesetting throughout 2006. Praise God that the Kriol people will have all the Scriptures ready for publication at the end of 2006.
